

**NEW**

# EASyS Modular S

More freedom of movement  
for an active day

  
Thomashilfen

# More head support, more comfort

## This is **NEW** ...

“ The perfect choice for children who need more positioning support in combination with the best possible freedom of movement. The short back in addition to the multi-dimensional adjustable headrest ensures ideal adaptation and support for active children. A large variety of adjustments for optimal seating, positioning and comfort in motion are the basis for taking part in everyday activities. ”

Small height and depth adjustable arm supports are positioned close to the child's body, for relaxed sitting

Multi-dimensional adjustable headrest for optimum adaptation and support (four possibilities)

Choose between **4** different **HEADREST** possibilities: **Thomashilfen**

**NECK SUPPORT:**  
supports the sensitive neck area during head movements

**SHELL:**  
gives maximum support for the whole head

**ADJUSTABLE:**  
both sides adjust for individual positioning

**ADAPTER:**  
an option for a custom-made headrest

A single release lever on the headrest tubes is used for:

- seat tilt-in-space
- separating the seat from the base

Soft suspension absorbs vibrations and ensures a smooth ride without compromising steering

The different headrest possibilities and adjustments allow perfect head support for children while promoting an anatomically correct head and sitting position.

Short back and separate headrest provide freedom of movement in the torso and upper extremities. Children sit in a stable position while taking part in their environment.

Sophisticated ergonomics allow it to adapt as the child grows. All necessary therapeutic adjustments can be handled hassle-free without tools.

Easy seat assembly and rapid change of viewing direction – without tools:

- forward facing
- rear facing

140° resting position offers comfort and relief for the child's spine.

**Much more storage space available under the seat:**

- washable basket (inclusive)
- vent tray for medical devices (optional)

## **EASyS Modular S**

More freedom of movement for an active day

## Chassis & accessories (selection)

**Q Chassis:**  
for kindergarten, school  
and at home with  
comfortable height and seat  
tilt-in-space adjustment
